TE MIX LIQUID

- A mixture of trace elements in a completely soluble form and widely spread in water which makes it easy to be absorbed by the plants.
- Works in a wide range of pH spray solutions as well as soil pH so it is easy to be absorbed and makes a quick impact.
- Provides energy for the plants to provide amino acids thus providing the protein constantly needed within the plant.
- A high-tech compound which makes the particle inside small in size (nanoparticles), helping to penetrate leaves at high speed.
- Works to meet the needs of plants in micro elements, necessary in all the stages of plant growth.

Dosage:

Can be applied to all Crops:
Fruiting vegetable (tomato, eggplant, pepper...), Potato, Cucumber, melons.
Pome fruit, Stone fruits, Citrus, Olive,
Grapes, Field crops and Ornamentals..

Foliar Spray: 500 ml /400 Liter Water

Drip Fertigation: 4.76-7.14 L / Ha

Compatible to mix with other fertilizers and pesticides.
